

DISTRICT GRADE RECONFIGURATION

Policy

This policy outlines the process undertaken to consider and establish grade configuration changes across Mountain Views School District buildings, and establishes the circumstances under which grade change recommendations will be reviewed by the Board. Such grade configuration changes will either be based on 1) sustainability criteria or 2) on educational aims and/or initiatives, as defined in Campus Sustainability Policy.

Grade configuration change shall require a 60% majority Board vote. Grade configuration changes made on the basis of educational aims or initiatives shall be made equitably for all affected students.

In considering any plan that involves grade reconfiguration at a campus or campuses, public input will be sought and considered. There will be not less than two Information Meetings, including one in each town where an affected school is located.

There will be a process to collect community feedback by a survey of the public in each district town and the Board and Administration will weigh the results when deciding on the matter.

If grade configuration changes are made at any campus, then appropriate adjustments will be made to the Campus Sustainability Policy.
