

Using The SmartBoard To Teach Math

Math Casting

The idea for Math Casting came from Mr. Marcos. Subscribe to his podcasts at Mathtrain.com. He also has a new site called Mathtrain.tv. This site is searchable and includes many math casts from around the world. If your class gets into math casting, you can subscribe to this site and upload your student's videos.

Creating a math cast with Jing.

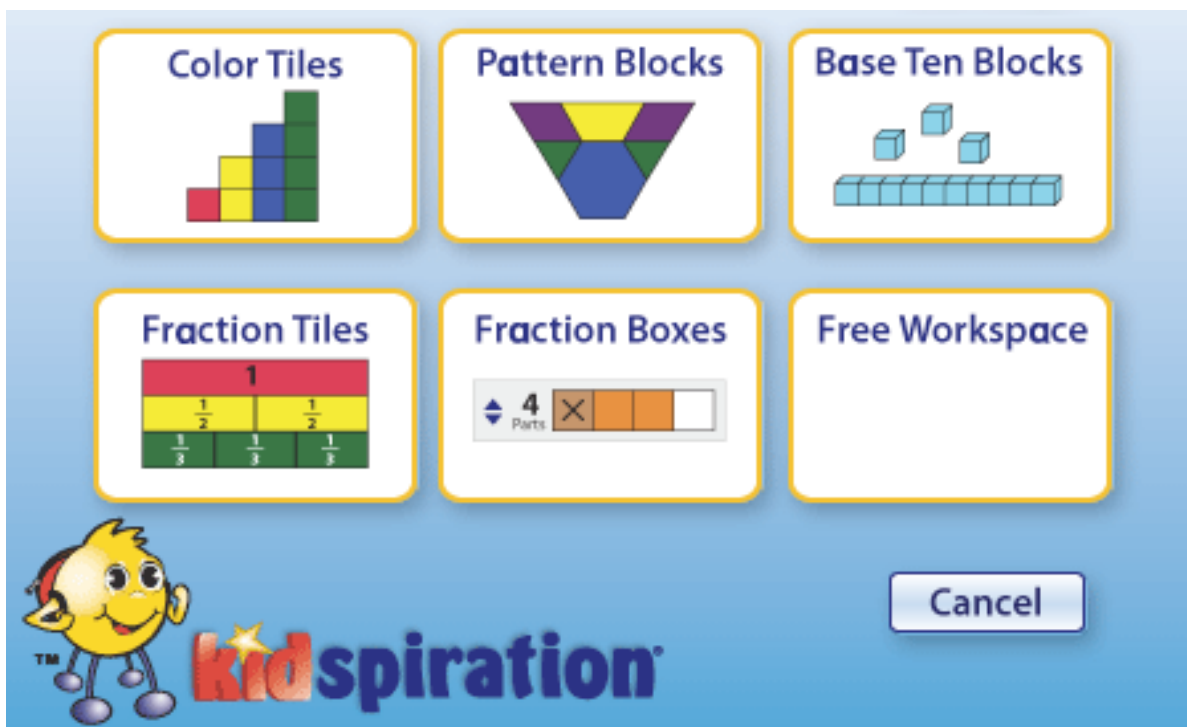

- ★Download Jing from jingproject.com
- ★Write a script for a math cast lesson
- ★Open the Notebook software
- ★Open Jing
- ★Select an area on the Notebook software to record
- ★Start recording
- ★Upload to the web and send the URL home with students

Count Me In Too

<http://www.curriculumsupport.education.nsw.gov.au/countmein/index.htm>

This site has a number of great games to play with students.

Kidspiration 3

The screenshot displays the Kidspiration 3 software interface with a blue background. At the top, there are six interactive buttons arranged in two rows of three. The first row contains 'Color Tiles' (with a bar graph icon), 'Pattern Blocks' (with a triangular pattern icon), and 'Base Ten Blocks' (with a base ten block icon). The second row contains 'Fraction Tiles' (with a fraction bar icon showing 1, 1/2, 1/2, 1/3, 1/3, 1/3), 'Fraction Boxes' (with a fraction box icon showing 4 parts), and 'Free Workspace' (an empty white box). In the bottom left corner, there is a cartoon character and the 'Kidspiration' logo. In the bottom right corner, there is a 'Cancel' button.
